UNUSUAL SIGHTINGS / CIRVIS REPORTS

AOC CL 9

Ref: GPH 204 SECTION 6 - PILOT REPORTS

CIRVIS reports should be made immediately upon a vital intelligence sighting of any airborne, waterborne and ground objects or activities which appear to be hostile, suspicious, unidentified or engaged in possible illegal smuggling activity.

Examples of events requiring CIRVIS reports are:

- unidentified flying objects;
- submarines or warships which are not Canadian or American;
- violent explosions; and
- unexplained or unusual activity in Polar regions, abandoned airstrips or other remote, sparsely populated areas.

1 DWO/T

When a **VERBAL CIRVIS** report is received, compile the information in an orderly format and prepare a **PRIORITY** message as follows;

ACTION: TRANSPORT CANADA// AARBI OTTAWA//

INTERNAL ADDRESS: AOC FILE

SUBJ: CIRVIS CIRVIS CIRVIS

Text should include the following information:

- a. identification of reporting personnel / aircraft / etc;
- b. brief description of sighting: number, size, shape, etc;
- c. position of sighted object or activity;
- d. date and time of sighting in UTC;
- e. altitude of object;
- f. direction of movement of object;
- g. speed of object; and
- h. any identification.

2 DWO/T

If you receive a message reporting a UFO/CIRVIS sighting, ensure that the above mentioned addressees are listed on the message. If not, it is the responsibility to the DWO/T to retransmit the original report to the required location.

NOTE 2: Reporting points are indicated by a symbol on the appropriate charts. The "designated compulsory" reporting point is a solid triangle and the "on request" reporting point symbol is an open triangle. Reports passing an "on request" reporting point are only necessary when requested by ATC. Therefore, no mention of an "on request" reporting point need be made in any position report unless it has been requested by ATC.

4. IFR flights that have been radar identified are to discontinue position reports. Position reports shall resume once radar services are terminated, radar contact is lost, or, requested by the controlling agency.
5. In order that flight information and alerting service may be provided to all IFR flights outside controlled airspace, pilots should make position reports over all navigational aids along the route of flight to the nearest station having air/ground communications capability.

841. METEOROLOGICAL REPORTS - AIREPS/PIREPS

1. AIREPS

Canadian Forces aircraft transiting Canadian Domestic Flight Information Regions north of 60°N, and east of 80°W, and north of 55°N, and west of 80°W shall make, record and report to the appropriate Domestic or International FSS, routine meteorological observations at each designated reporting point or reporting line.

All aircraft operating in the Gander Oceanic Area should use the AIREP format and report routine meteorological observations at each designated reporting point or line. The exception is that aircraft cleared on a designated North Atlantic track will give these reports only if the phrase "SEND MET REPORTS" is included in their oceanic clearance.

Since the purpose of these reports is to obtain weather information for input to computers used to provide aeronautical meteorological forecasts, adherence to Standard Procedures of AIREPS Code is required.

2. PIREPS

Pilots flying in Canadian Domestic airspace are urged to provide pilot reports of in-flight weather conditions. These can be provided to any Flight Service Station, ATC facility or Weather Office. They should generally include the time of observation, type of aircraft, altitude, position and meteorological conditions observed. In addition to filing PIREPS from the air, pilots are urged to file post flight reports with destination Weather Offices or Flight Service Stations.

SECTION 6 - PILOT REPORTS

850. PILOT REPORTS - GENERAL

Pilots are requested to make the following reports in the interest of national security, forest fire and pollution control.

851. CIRVIS REPORTS - VITAL INTELLIGENCE SIGHTINGS

1. CIRVIS reports should be made immediately upon a vital intelligence sighting of any airborne, waterborne and ground objects or activities which appear to be hostile, suspicious, unidentified or engaged in possible illegal smuggling activity.
2. Examples of events requiring CIRVIS reports are: unidentified flying objects, submarines or surface warships identified as being non-Canadian or non-American; violent explosions; unexplained or unusual activity including the presence of unidentified or suspicious ground parties in Polar regions, at abandoned airstrips or other remote, sparsely populated area.
3. These reports shall be made to the nearest Canadian or U.S. government FSS or ATC unit.

A report via A/G should include:

CIRVIS CIRVIS CIRVIS

- a. Identification of reporting aircraft.
- b. Brief description of sighting: number, size, shape, etc.

04

RELEASED UNDER
AIA. INFORMATION

- c. Position of sighted object or activity.
- d. Date and time of sighting in UTC.
- e. Altitude of object.
- f. Direction of movement of object.
- g. Speed of object.
- h. Any identification.

852. FIRE DETECTION - NORTHERN AREAS

1. The Department of Indian Affairs and Northern Development have requested the co-operation of all persons connected with aviation, in the prevention, detection and suppression of fires in the northern areas of Canada.
2. If smoke or other indications of fire are seen in any area, the local Forestry Warden, Game Management Officer, or member of the RCMP should be notified at once. If they are not available the fire should be reported by collect telegram or telephone call to:
 - a. Superintendent of Forestry, Fort Smith, Northwest Territories, for fires in the Northwest Territories and Wood Buffalo National Park.
 - b. Superintendent of Forestry, Whitehorse, Yukon Territory, for fires in the Yukon Territory.
3. Reports should give the size and location of the fire and the name and address of the person making the report. This information will assist fire crews in getting to fires with a minimum delay and with the right type of equipment.

853. POLLUTION REPORTS

1. Any aircraft in the airspace above Canadian waters, Fishing Zones or Arctic Shipping Control Zones should inform the nearest Canadian FSS upon sighting any vessel discharging pollutants (oil) in Canadian waters, Fishing Zones or Arctic Shipping Control Zones.
2. On the West and Eastern Coasts the waters extend to approximately 200NM from the coast line. In the north the area includes virtually all of the waters in the Canadian Arctic.
3. The FSS will relay any reported pollution incidents to the appropriate Coast Guard Centres.

1. A UFO SIGHTING WAS REPORTED TO NDOC BY 19(1) OF MASHAM, PQ AT REF. THE SIGHTING OCCURRED ON 19 MAR 96 BETWEEN 2200 AND 2225 LOCAL TIME.

2. 19(1) REPORTED THAT THE UFO, OVAL IN SHAPE AND EMITTING A BRIGHT LIGHT (COLOUR ALTERNATING BETWEEN RED, GREEN AND WHITE) WAS FIRST SPOTTED AS SHE WAS DRIVING TO HER HOME IN MASHAM, BUT WAS VISIBLE FROM HER HOUSE AFTER SHE REACHED HOME. SHE DESCRIBED THE EDGE OF THE UFO AS HAVING WHAT APPEARED TO BE FLUORESCENT LIGHT-LIKE PROTRUSIONS AROUND ITS CIRCUMFERENCE. SHE ADDED THAT THE UFO WAS MOVING ALL OVER THE SKY, FIRST AT VERY LOW ALTITUDE, THEN AT A HIGHER ALTITUDE, PRIOR TO DISAPPEARING. SHE ALSO OBSERVED FOUR PASSENGER AIRCRAFT FLYING PAST THE AREA IN WHICH THE UFO WAS OBSERVED AND

1. IAW req at ref, fol for your info, to date UFO reports/sightings received by this unit are relayed/reported verbally to 21 ACW sqn North Bay SD for their action. Fol are transcripts from 4 Wg COC log book:

a. Log entry - 06/2245Z Feb 94; Caller ID - : :

Reporting UFO sighted early this morning, approx 0015L. Description - She saw a huge sun like shape, blue with a red top. It came straight down. This lasted approx 5 sec. She sighted it from her home and said if it landed it would have probably landed just south of Iron Lake. Passed to SD. 4 Wg WCOO tech - Cpl Folsom.

b. Log entry - 19/1515Z Dec 94; Caller ID - : :

of sighting 19/1504Z. Condition of sky - clear. Location of sighting - same as above. Sighted by - observer, wife and children. Description - one object, round, bright light in the sky that resembles a light bulb, white in colour, low in the sky, no movement, and bright luminosity. Duration - noticed 30 mins prior to call and still there. SD advised. 4 Wg WCOO tech - Cpl Lamothe.

c. Log entry - 31/1700Z Jan 95, Caller ID - : :

Reporting 3 objects 12 miles north east of Pearce Land, Sask. Description - 3 objects with orange and yellow lights (bright) which moved swift, then slow, then swift. Duration - 2 hrs. She also mentioned all hydro electricity was out during this time. Passed to SD. 4 Wg WCOO tech - Cpl Wyatt.

2. 4 WCOO has updated local checklist to reflect ref msg actions and reflects North Bay SD checklist for particulars.

It is also important to note that the results of the study were not limited to the effects of the intervention on the primary outcome measure. The intervention was associated with significant improvements in all secondary outcome measures, including the number of days spent in hospital, the number of days spent in the ICU, and the number of days spent in the CCRU.

NOTHING WAS SEEN. SUBJECT BELIEVES THAT IT WAS NOT A PRACTICAL JOKE. IN THE MORNING, A DONUT SHAPED CIRCLE WAS FOUND IN HER GRAVEL DRIVEWAY. NO BURN MARKS EVIDENT. INNER DIAMETER OF CIRCLE ONE FOOT 10 INCHES. OUTER DIAMETER TWO FOOT NINE INCHES. ACOC COMMENT: SON-IN-LAW REPORTED THAT SUBJECT VERY SERIOUS THAT THIS WAS AN UNUSUAL INCIDENT, HOWEVER HE REPORTED THAT HE COULD REPLICATE EFFECT BY LOWERING THE BLADE OF A SINGLE-BLADE DRIVE-ON LAWN MOWER WHICH WOULD BE CONSISTENT WITH THE NOISE HEARD.

Has the behavior of Congress violated the spirit of the Constitution? The answer is yes, and it is time to change.

SUBJECT: CIRVIS (UFO) REPORT

THE FOLLOWING IS A COPY OF A REPORT FROM PRINCE ALBERT PCS FILED WITH THIS UNIT VIA WTNNTPEG ACC:

280831 CYPAFYY

CIRVIS

RECEIVED CALL AT 2AM (280831) FROM (1)

HE WAS CALLED OUT TO SANDY PAY RESERVE ONT OF CANWOOD (APPR 42-50 MILES NW YPA) BY RESIDENTS TO REPORT A SAUCER SHAPED OBJECT IN THE SKY. IT WAS FIRST SEEN AT 11PM (0500Z) AND WAS LOW IN THE SKY DUE EAST APPROXIMATELY THE SIZE OF 5-6 HOUSES. A RING OF Portholes could be seen around it with the brightest porthole in the center. Middle area was blue/green, and yellow where the portholes were. It appeared to be spinning. By 2AM it moved slowly to the south, disappearing for appr 1/2 hour, is farther away, higher in the sky and now appears stationary. CONSTABLE BITCHET SAYS NOW WITH THE NAKED EYE IT APPEARS AS A FIGHT LIGHT, BUT THROUGH 10 POWER BINOCULARS HE CAN SEE THE COLORS IN IT.
